

Touch your Audio

UAP G2

The New Generation
Audio Signal Processing

- Designed for Commercial Audio Applications such as Hotels, Restaurants, Meeting rooms, Schools and so many other applications where High end sound coupled with easy control is the criteria.
- The UAP delivers 96KHz at 24bit sampling for high end sound fidelity, in-built DSP generous library of all the Pro-Audio Components required for the above applications including feedback killers, filters, limiters, compressors, etc.
- The UAP is fully integrated with the Vity by ATEIS Automation touch screen panels that can add elegant touch control to the power of audio. As well its open to many other brands like AMX, Creston and others.
- The UAP comes with 16 I/O cards, and can be expanded up to 12 units in the same rack, as well the well known ATEIS URC, RAC and PPM microphones can be connected on the RS485 bus having affordable but yet powerful remote control.
- TCP/IP connectivity and programming makes the UAP the ideal solutions for applications where remote control and GUI is needed.
- The UAP is loaded with 36 minutes of Message Player and up to 128 schedules can be scheduled easily and up to 100 events.
