

**ATEİS launches the new Fire Detection and Alarm System “VELOX”, fully integrated with the legendary SINAPS Voice Evacuation and Public Address by ATEİS.**

In old Latin VELOX means Swift or Rapid, and this is how our new Fire Detection System react in less than one second even on a fully loaded loop.

Fully Complying to the latest BS5839 part 1 and Kite Mark Approved\*, VELOX provide detection precision and advanced features like no other :

- In-built Isolator in each and every device.
- Up to 240 detector per Fire Detection Loop.
- Up to 2Km loop length on a 1.5m<sup>2</sup> / 2 core cable.
- Multi-sensor technology.
- Soft and Safe Addressing Features.
- Up to 250 FACP on a twisted pair copper cable network and 2km between each panel.
- TCP / IP Connectivity

\* Listing is pending
